Education

•Bachelor of Technology in Computer Science and Engineering *2022-26*
Sardar Vallabhbhai National Institute of Technology, Surat CGPA: 8.73 (Till Sem 6)

•Class 12th - Maharashtra Board *2020-22*
Rajeshri Shahu Junior College, Mhasla Percentage: 94.33

•Class 10th - CBSE Board *2020*
Sahakar Vidya Mandir, Buldana Percentage: 94.28

Experience

•Salesforce : AMTS Summer Internship'25 Link *May - July 2025*

- Automated background operational processes in Salesforce Stage Management by integrating Agent Step Type using Agent API, Agentforce, and Apex, significantly reducing manual effort and turnaround time.
- Implemented structured agent workflows: token generation → session initialization → utterance messaging → Screen Flow–driven agent response → conditional follow-up actions, ensuring efficient task orchestration.
- Developed secure and scalable Agentforce integrations with REST APIs improving process accuracy and operational efficiency.

Personal Projects

–Interview-Buddy – RAG-Powered SDE Interview Assistant *Link*

Streamlit app for scraping and summarizing real-time interview experiences.

* Scraped company role-wise interview pages (newest-first) from Code360/Naukri using Selenium and stored them as structured JSON.
* Chunked data via LangChain, created Gemini embeddings, and indexed them in FAISS for fast semantic retrieval.
* Built a RAG flow: user query → preprocess → top-5 similar chunks → Gemini-generated answer.
* Created round-wise summaries using top interview sets and included scraped question links.

–CurveTopia – AdobeGenSolve (Machine Learning)

A shape recognition model developed for AdobeGenSolve Hackathon powered by GeeksForGeeks'24.

* Achieved 60% accuracy on just 5 epochs using a custom 80-20 train-test split.
* Implemented a Flask-based web platform to predict user-drawn shapes in real-time.
* Technologies Used: Python (TensorFlow, NumPy, PIL), Flask, Matplotlib, CSV, base64.

Technical Skills and Interests

Languages: C/C++, SQL, PSQL, JavaScript, Python, HTML5, CSS, Shell Script, Socket Programming
Libraries : C++ STL, React.js, EJS, Express.js, Python Libraries
Web Dev Tools: Node.js, Firebase, Docker, VS Code, Git, GitHub
Cloud/Databases:MongoDb, Firebase, Relational Database(mySql), MongoDB
Relevent Coursework: Data Structure and Algorithms, DBMS, Operating Systems, Computer Networks, AI, Machine Learning, System Software, Cloud Computing, Information Security, Social Network Analysis, Data Science, Cryptography, Blockchain Technology, BigData Analytics, Distributed Systems

Awards and Achievements

Google Cloud Study Jams: Certified in Google Cloud tools and technologies.
AdobeGenSolve Hackathon '24: Ranked in the top 5 percentile for developing the CurveTopia project.
Salesforce Futureforce Women in Tech Summit'24: Selected among top 120 girls nationwide for the summit.

Positions of Responsibility

–Executive (2023–24) | Community Head (2024–25) ACM NIT Surat *2023 – 2025*

* Led national outreach, content creation, and promotional strategies for ACM events, including DotSlash – a 30-hour hackathon with 1300+ registrations.

Scholastic Achievements

GATE 2025: Secured AIR 11017 in the Computer Science and Information Technology stream.
JEE Mains & Advanced (2022): Secured AIR 6557 in JEE Mains and AIR 10631 in JEE Advanced.
MHT CET (2022): Achieved 99.7 percentile in the Maharashtra CET exam.
